

P.D.O AT ST. BARNABAS

The purpose of the St. Barnabas Parents' Day Out (PDO) program is to provide individualized care for preschool age children from 2 through 4 years of age.

We believe that parents have a need for regular and reliable care for their children, and that children can benefit from time away from home meeting and playing with other children in a loving and caring environment. We support each child in their developmental growth and provide individualized care to support each child's needs.
